

Supervisor

FF02 Operational and team management · ISCO-08 121 · CBS 0521 Managers in Business and Administrative Services · seniority medior · Also known as: Floor Supervisor, Shift Supervisor

Supervises a group of employees directly during the shift, allocates tasks, steps in where needed, and ensures agreed service levels and work instructions are met.

The supervisor works on the floor among the staff and is the first point of contact during peaks, absence or a complaint that the front line cannot resolve. Unlike a team leader, the role is tied to the shift rather than to personnel files and annual plans. In selection too much weight goes to seniority in the trade and too little to setting priorities under peak pressure and correcting colleagues on the spot.

5 Behavioural anchors per skill

Anchors sit at N1, N3 and N5. N2 and N4 are deliberately not anchored: raters interpolate between them, following the O*NET convention.

Skill	N1	N3	N5
Directing and steering people Making clear to employees what is expected, giving assignments, setting boundaries and intervening when work or behaviour deviates from what was agreed.	Gives a colleague a concrete assignment with expected result and timing and checks whether the assignment is understood.	Sets expectations and boundaries per team member, addresses deviating behaviour directly and records agreements in writing.	Designs the management line for the whole organisation, addresses managers on their style and defines what good steering means here.
Planning and organising Placing activities, people and resources in time, setting priorities and arranging dependencies so that agreed results are delivered on schedule.	Makes a daily or weekly schedule for own tasks and sticks to the agreed order and times.	Plans the work of the team for several weeks, distributes tasks and reshuffles on disruptions without missing deadlines.	Sets the planning system for the organisation, links annual plan, capacity and budget and decides on conflicting claims.

Skill	N1	N3	N5
Monitoring progress Tracking agreements and workflows, measuring in between whether results are on schedule and adjusting in time on the basis of facts and signals.	Keeps a list of own tasks and reports to the manager when an agreement threatens to slip.	Holds fixed progress reviews with the team, compares plan with actuals and intervenes when deviations appear.	Designs the progress and reporting structure for the whole organisation and determines which indicators are tracked at each level.
Managing workload pressure Keeps an overview when the volume of work rises, chooses what goes ahead and what does not, and puts the consequences to stakeholders.	Tells the supervisor that the work does not fit the available time and follows the choice that is made.	Cuts or shifts tasks independently when busy on the basis of importance, records this and discusses consequences with clients.	Redistributes work and capacity across departments in cases of structural overload and sets norms for sustainable workload distribution.
Managing service levels and performance indicators Agrees measurable service and performance standards, measures the actual results and takes action when agreed levels are not met.	Reads the performance overview and reports which agreement was not met in the past week.	Draws up indicators and standards for a service, reports per period and carries out improvement actions on deviation.	Determines the system of service levels for the organisation and negotiates these with customers and suppliers.
conflict handling Naming a difference of interest or opinion, clarifying the positions of those involved and reaching a workable agreement with them.	Reports a conflict to own manager and describes factually what happened and what was said.	Brings parties together, separates positions from interests and records the resulting agreement and its follow-up in writing.	Mediates conflicts with high stakes between departments or partners and establishes organisational policy for resolving conflict.
giving feedback Naming concrete behaviour and its effect to another person, with a request or proposal, at a moment and in a way that keeps dialogue possible.	States after a shared task what a colleague did well and gives a concrete example with it.	Discusses unwanted behaviour with the person concerned, describes fact, effect and request, and agrees on a follow-up.	Introduces feedback as a working method across several teams, trains managers in it and monitors whether unwanted behaviour is raised earlier.
holding others to agreements Approaching others when agreements or standards are not met, naming the gap and recording a new agreement together with them.	Addresses a direct colleague about an agreement that was not met and asks when it will be done.	Also addresses colleagues outside own team about agreements, names the consequence and follows up on the new agreement.	Addresses executives and partners on compliance with agreements and anchors that practice in the organisation's way of working.

Skill	N1	N3	N5
Translating direction into goals Converting strategy and vision into concrete, measurable goals and result agreements for teams and employees, with a clear ordering in time and priority.	Turns a given team goal into own tasks with a deadline and discusses this with the manager.	Translates department goals into measurable result agreements per team member and records how and when progress will be measured.	Builds an organisation wide goal structure in which strategy, annual plans and team agreements align, and sets the measurement standards.
Delegating Transferring tasks and authority to the right person with clear agreements on result, room and feedback, without taking the work back over.	Hands a clearly bounded task to a colleague and explains which result and which deadline apply.	Chooses per task who is able and allowed, agrees decision space and leaves the execution with the other person.	Defines which authorities belong at which organisational level and ensures mandates are used consistently across units.
Conducting performance conversations Preparing and holding conversations about performance and results, using factual examples, mutual checking and recorded agreements about improvement or next steps.	Prepares a conversation with two concrete examples of work and asks the manager to review it beforehand.	Conducts annual reviews independently, supports the judgement with facts and records improvement agreements with deadlines in writing.	Sets the review cycle and assessment standards for the organisation and samples the quality of recorded judgements.
Coaching Helping employees reflect on their own behaviour and choices through questions, mirroring and feedback, so they take a next step in their work themselves.	Asks a colleague after a job what went well and what they would do differently next time.	Holds coaching conversations with open questions, names patterns in behaviour and lets the other person formulate a learning goal.	Trains managers in coaching behaviour, guides peer supervision groups and determines how coaching is deployed across the organisation.
Capacity and resource planning Matching available hours, qualifications and resources against expected workload and distributing staffing so that peaks and shortages remain manageable.	Fills in the staffing list according to the roster and reports gaps in the planning to the planner.	Calculates required hours and qualifications per period, makes a staffing plan and substantiates requests for extra capacity.	Develops the capacity model for the whole organisation, links it to demand forecasts and decides on structural use of flexible capacity.

Skill	N1	N3	N5
Continuous improvement Finding, testing, measuring and sustaining small improvements in daily work, together with the people who carry out that work.	Brings improvement ideas to the work meeting and tries out a proposed small change in own work.	Organises short improvement cycles in the team, measures the effect of a change and secures what works in the work instruction.	Embeds continuous improvement as a way of working across the organisation, trains improvement coaches and reports gains to the executive team.
Planning of operational processes Distributes work, people and resources over time so that the required output or service is achieved with the available capacity.	Fills in the daily roster following the fixed planning rules and reports staffing bottlenecks to the planner.	Makes the weekly planning for a team, takes peak load and absence into account and replans when disruptions occur.	Determines the planning model for several departments and decides on capacity expansion or outsourcing of work.
Complaint handling Receiving a complaint, tracing its cause and reaching a solution that the client accepts and that prevents the error from recurring.	Records a complaint fully in the system, offers an apology and hands the file over according to procedure.	Calms an angry client, separates emotion from facts and offers a solution with a deadline within own mandate.	Handles escalated cases with legal or publicity risk and uses complaint analysis to change processes structurally.
Service calls and telephone contact Handling client contacts by telephone and chat with a fixed structure, controlled questioning and a closing that contains a concrete agreement.	Answers according to the script, registers the question in the system and transfers the caller to the right colleague.	Settles unusual questions within a single call, keeps call time under control and audibly summarises the agreement made.	Designs conversation models and quality standards for the contact centre and reviews recordings to support coaching and system choices.
promoting psychological safety Acting so that others can voice mistakes, doubt and criticism without disadvantage, by keeping own reactions predictable and following up on what is raised.	Responds calmly when a colleague reports a mistake and thanks that person for raising it.	Explicitly asks the team for doubt and dissent, names own mistakes and reports back what was done with signals raised.	Measures across the organisation whether people feel safe to speak up and steers leadership behaviour on those outcomes.

Skill	N1	N3	N5
Guiding absence and work ability Holding absence conversations, monitoring work ability and workload capacity and agreeing with occupational physician and employee on recovery and return to work.	Reports absence according to the fixed procedure and keeps contact with the absent colleague at agreed moments.	Holds absence conversations without asking for medical details and draws up an action plan with the occupational physician.	Sets the organisation wide absence and vitality policy, tracks causes across departments and steers on structural root causes.
Team development Turning a group into a collaborating team by discussing roles, mutual expectations and working agreements and by addressing tensions in the collaboration.	Takes active part in team agreements and names in the team meeting what would make collaboration easier.	Discusses roles and irritations in the team, makes working agreements and evaluates them after an agreed period.	Develops the collaboration standard between teams and departments and guides managers through deadlocked cooperation across the organisation.
Improvising within boundaries Devises a workable solution on the spot in an unexpected situation, staying within applicable rules, safety requirements and agreements.	Reports an unexpected situation immediately and carries out the solution the supervisor provides.	Chooses an interim solution within the rules when something fails or an unexpected request arrives, and records afterwards what deviated.	Determines how much room for improvisation the organisation allows and records which boundaries are never crossed.
Budgeting and cost control Draws up a budget for a task, team or project, tracks spending against that budget and intervenes when overspending threatens.	Tracks spending in the supplied overview and reports deviations above the agreed limit.	Makes the budget for an own project, follows realisation per period and proposes measures in case of deviation.	Sets the budget framework for the organisation, decides on reallocation of resources and accounts for it to the board.
Applying a quality management system Works according to documented procedures and standards, records deviations and carries out improvement and audit actions within the quality system.	Follows the prescribed procedure in the own work and records a deviation in the reporting system.	Carries out internal audits on a process, names the cause of deviations and follows improvement measures through.	Builds the quality system of the organisation, sets the standards and represents it towards the certifying body.

Skill	N1	N3	N5
Safety awareness Continuously watches for unsafe situations and actions at work, addresses others about them and chooses the safe working method even under time pressure.	Follows the safety rules of the workplace and checks back when in doubt about an operation.	Recognises unsafe situations in own process, intervenes and addresses colleagues without bringing the work to a halt.	Sets the safety standard for the organisation, makes safety discussable at every level and steers behaviour and culture.
Using collaboration platforms Collaborates in digital platforms by sharing files, setting up tasks and channels and following agreements on working together online.	Shares files and messages in the designated channel and follows instructions on permissions and storage locations.	Sets up channels, task boards and permissions for a team and addresses colleagues on agreements about online collaboration.	Determines organisational policy for digital collaboration and steers the introduction of new ways of working together.

6 Assessment methods and validity

The validities are the corrected meta-analytic estimates from Sackett, Zhang, Berry and Lievens (2022) in the Journal of Applied Psychology, which replace the older Schmidt and Hunter (1998) figures. The spread matters as much as the mean: with a high SD, validity varies strongly by context.

Assessment method	rho	SD	What it is
Assessment centre	0.29	0.09	Multiple exercises, multiple assessors, dimension-wise scoring.
Work sample test	0.33	0.09	The candidate performs a representative work sample under standardised conditions.
Structured interview	0.42	0.19	Behaviour-based interview with fixed questions and a rating scale per question.
Simulation	-	-	Simulated work situation, usually digital, with standardised scoring.
Situational Judgement Test	0.12	0.11	Scenario with response options, scored on knowledge or behavioural tendency.
360-degree feedback	-	-	Multiple raters around the person rate behaviour against behavioural anchors.

7 Assessment instruments for this job

hrmforce instrument	Skills	What it measures
Competency Check	15	Behavioral-Level Competency Assessment
360 Feedback	14	Multiple assessments based on behavioral anchors
Work sample test	9	Representative work sample under standardized conditions
Big Fifty	5	Personality questionnaire, 150 items, 25 factors
Pulse Survey	4	Periodic measurement at the team and organizational levels
Knowledge test (client-specific)	4	Professional knowledge test, customized for each client
Development Review	3	Structured development interview
Conflict Styles	2	Preferred style in conflict situations
Communication Styles	2	Preferred communication style
Colour Profile (Jung)	1	Four color types, linked to Big Fifty factors

8 How to use this profile

1. Agree the profile with the hiring manager before the first candidate is measured. Weights shifted afterwards make the outcome indefensible.
2. Choose the assessment method per skill from the Assessment method column. Combine at most three methods per candidate.
3. Calibrate the assessors in a two-hour session using the anchors in chapter 5. Anchors without rater training deliver little.
4. Fill in the match calculator and discuss the gaps in the development conversation. Type A and type G are selection criteria, not one-quarter development goals.
